

*Poetica versio in lingua Latina fabulae figuratae, notae ut "Alter mundus", scriptoris Francogallici J.J. Grandville (1804-1847).*

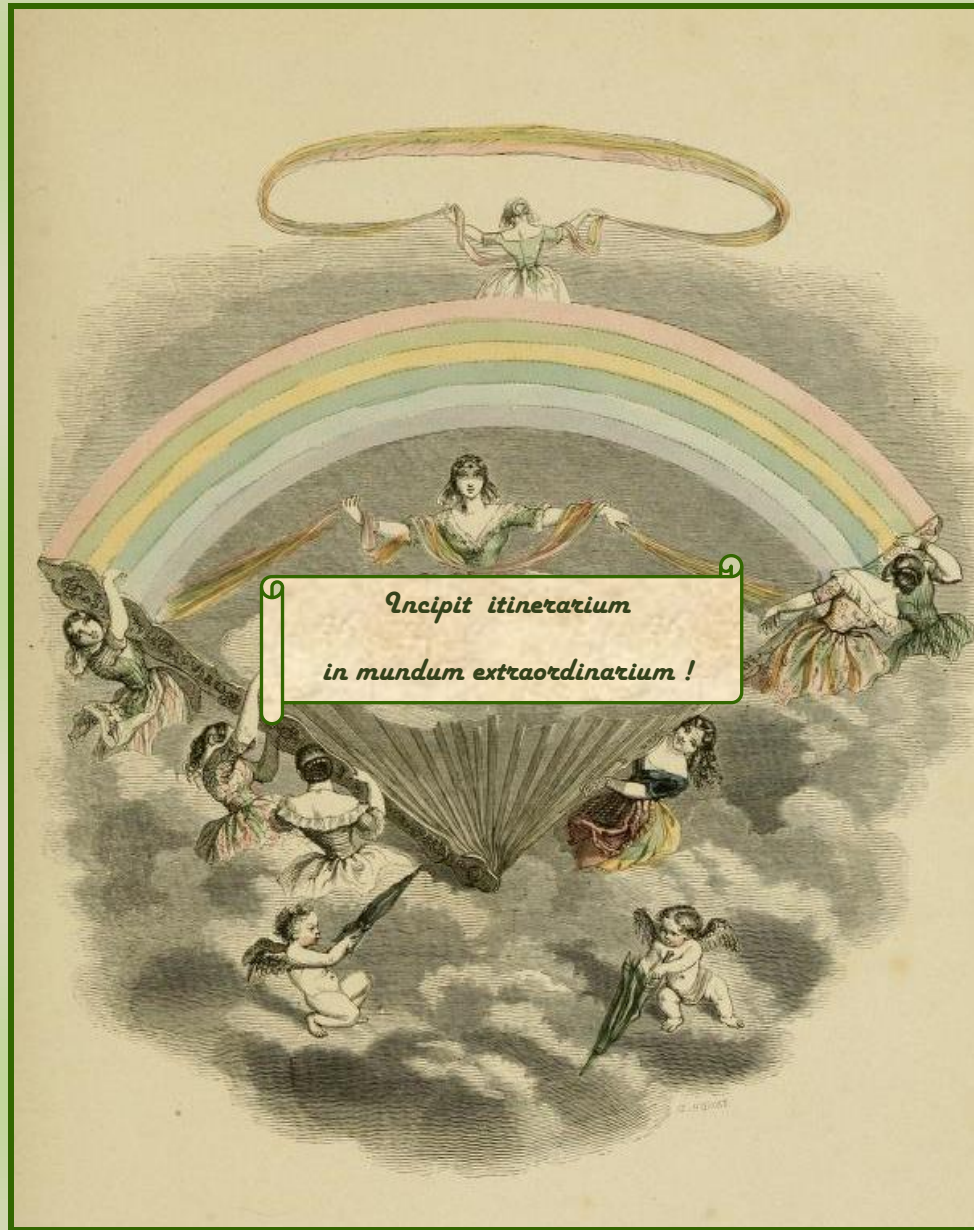

*<<Ma -fu aggiunto più tardi- non seppe percorrere la sua strada>>.*

*Edita in 1844, fabula "Alter mundus" narrat de metaphoricis itinere lapidis et stili, comitati a miris homunculis et dea Phantasia, in mundis sine aliqua ratione, trans temporum fines, inter varias novasque personificationes.*

*Nec deest, in hoc miro universo irrealis phantasiae, aliqua imago putae poesiae: scurra qui ludit cum planetis, candor Cometae cum stellarum theoria qui illuminat polum caeli.*

*Opera, praeterea, ut dicit D. Doghera, praedicat artificia et inventiones temporis  
recenti, cum imagine praesertim pontis qui iungit plures mundos in infinito cosmo.*

*Lapis et stilus in magna harmonia  
ad novam vitam delineant viam.*

*Comes eorum est Phantasia  
in percurrendo mundo magiae.*

*Ubi omnia somnia et inventiones  
hoc solum habent ut intentionem:*

*facere omnes valde felices  
in illustrandis antiquis mythis.*

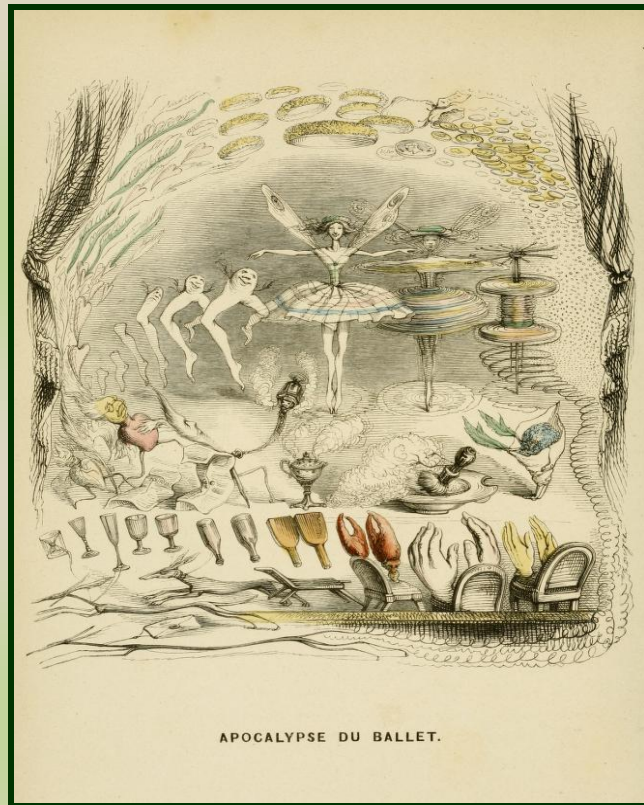

*Ō quam mirum concertum in mechanico theatrino:*

*tritanuces qui saltant, dum resonant violini.*

*Cantant pomelli versiculos amoris,*

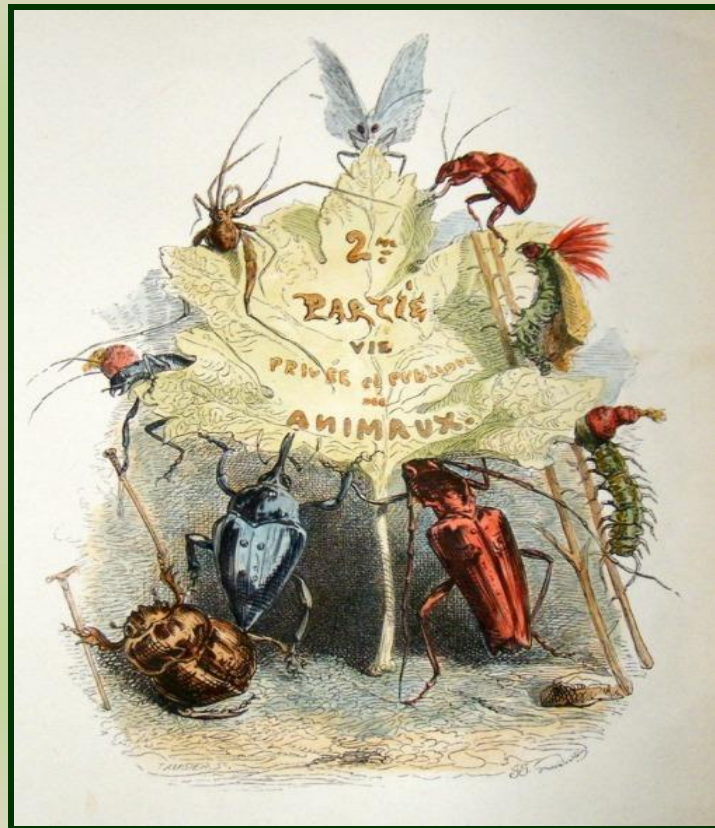

*effugiunt notae e calamis syphonis.*

APOCALYPSE DU BALLET.

*Velut aviculae volitant in vento  
inter diademata ex auro et argento.*

*Plaudunt subsellia ad fusorum chorum,  
cum tauca voce antiqui horologii.*

*In regno animalium sunt iam revolutiones!*

*<<Peteant coqui, ad mortem venatores!*

*Posthac nos soli simus domini Universi!*

*Feminae et homines nobis sint devoti servi!*

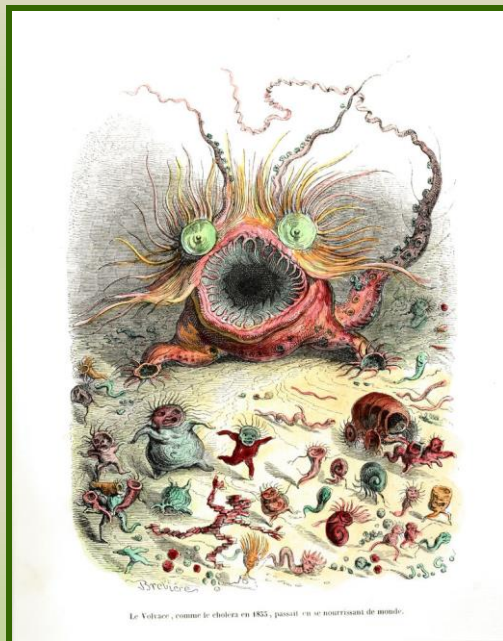

*Quibus captum mille illecebris>>.*

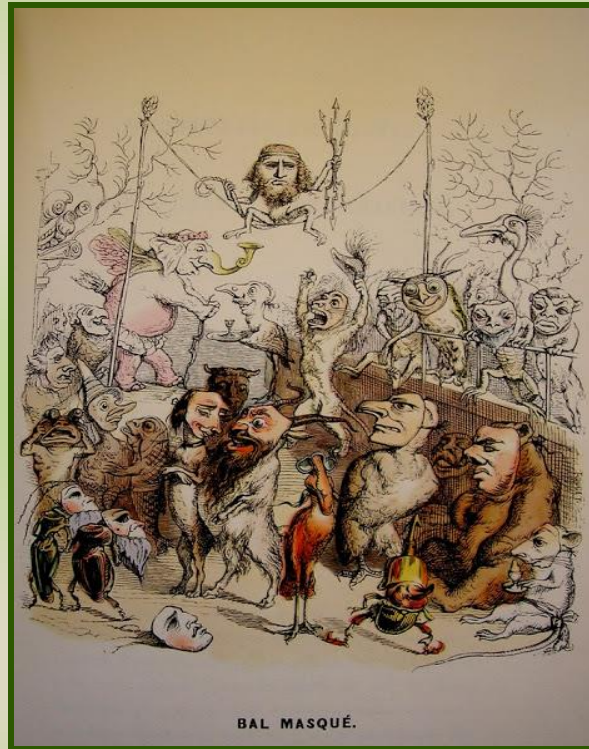

*At quisnam praerit isti proelio?*

*<< fgo sum aptus!>>, << At mecum est melius!>>.*

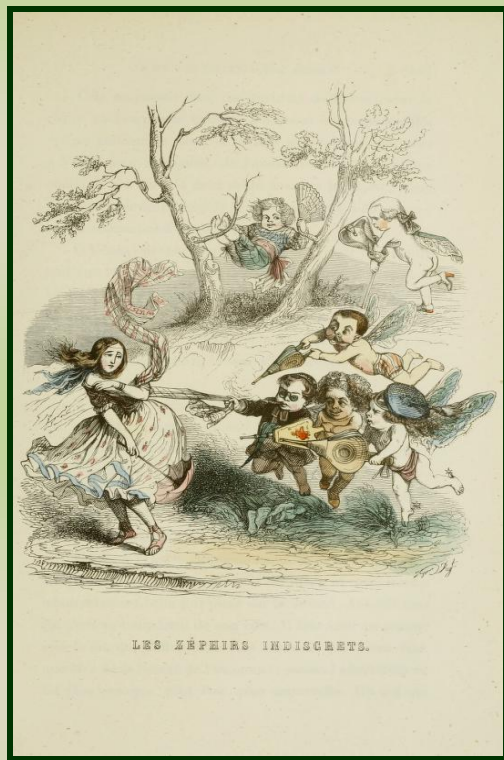

*Res tandem venit ad arma bestialia  
et sine duce omnia erunt inania!*

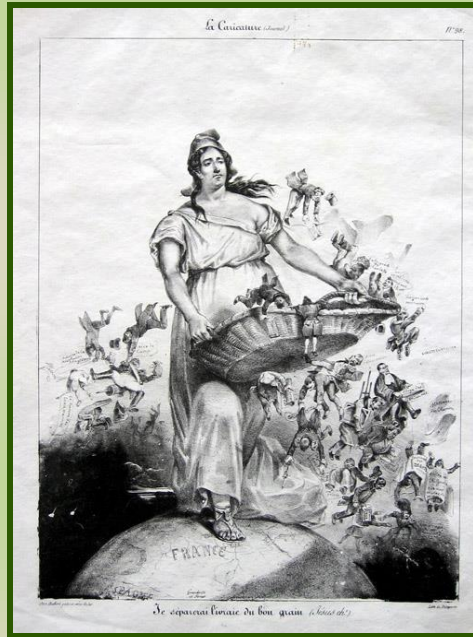

*Velut in mundo sic quoque in coelo  
deis heroibusque est ferum proelium!*

*Juppiter amat sine pudore,  
malitiae Zephyri sunt etiam maiores!*

*Sidera volant arbitrio histrionis.*

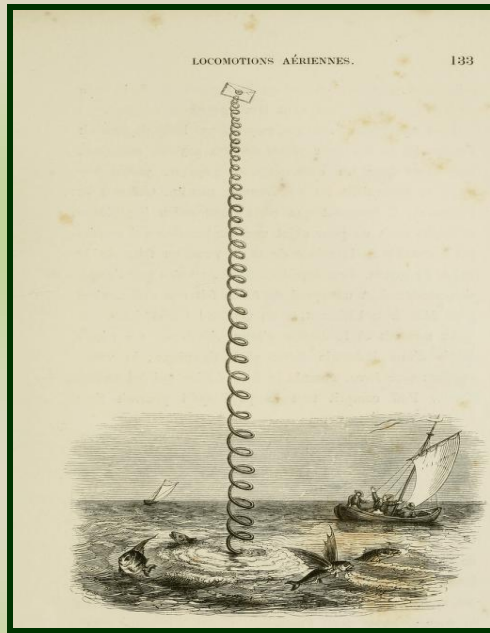

*Abest iam luna, comite sole.*

*Homines ipsi errant in cosmo  
deque suo casu nullum responsum!*

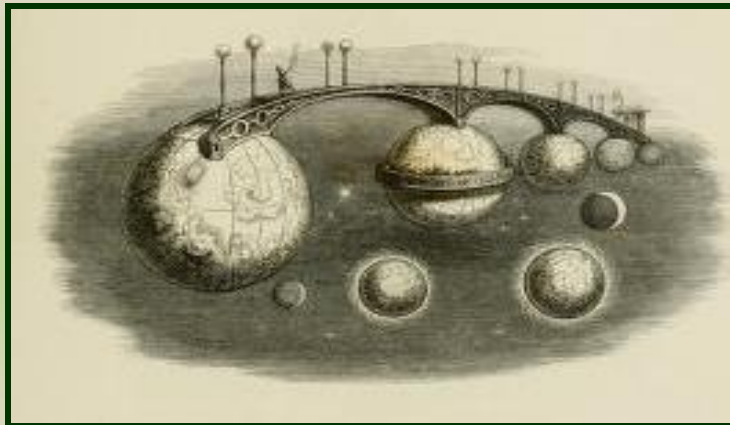

*Donec petitus ingenii subtilis  
mirum repertum velit experiri!*

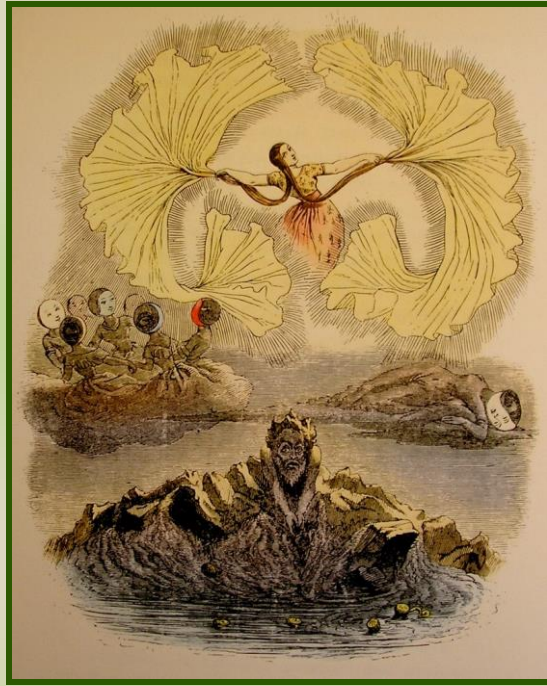

*Ascendit scalam inter nubes et solem,  
de hoc consultum Deum creatorem:*

*pons qui coniungat sidera et mundos,*

*in coelo taenia, aetrea unda!*

*At in mundo mixto, ubicumque illud sit,  
necesse superest dulcis Poesis!*

*In volatu aereo flavae Cometae,  
in aureo scenario planetis ornato!*
